## Registration of cosmetic products for Würth – further action

Dear xy

As announced at the beginning of this year, the Würth EU subsidiaries have opened up an account and a so called „sub account“ for you as a supplier in the CPNP. This means you can now go ahead and enter the required information into the sub accounts. Since the access to the CPNP site is public, a supplier designation code was established for you. Your coding is:

You can now start to enter your information into the CPNP. Attached you will find an overview of the Würth subsidiaries which are being supplied with products from you.

Please note that, when you make the registration in the sub account, you take the „Responsible person“ of the Würth subsidiary and enter that person as the „Contact persons list“. Please see the example below:
